Mountain Weather Forecast

Ground Conditions Supplement

Date: Saturday 23 December 2023 Location: Skiddaw summit at 11:45 Full report: There is currently no snow and ice on the Lake District fells. The main hazard today was the high winds with some dramatic Venturi effects where it was being accelerated through cols and over ridges. The 85mph gusts measured today were easily enough to blow the stoutest walker over with a high risk of injury. Walkers really need to have their clothing and navigation systems dialled in to enjoy an adventure in these conditions. The days are getting longer but we still only have 7:16 of daylight to play with with sunset at 15:49. Be prepared for the conditions with plenty of warm and waterproof clothing, hats, gloves, an appropriate method of navigation, food and drink, fully charged mobile phone and a head torch. Temperature: plus 4.5 C, Maximum wind speed 84.7 mph, Wind chill: minus 6.0 C, Average wind speed: 66.8mph

Issued at: 1730 on Sat 23 Dec 2023
